WHAT IS A CCR?

College & Career Readiness

The state defines it as: School counselors use a comprehensive, systemic approach to inspire and prepare all students for post-secondary educational opportunities through individual student planning, career pathways, and career literacy.

UTVA Counselors define it as: Your counselors want you to be happy and successful in and after high school! So we want to talk about your current schedule, graduation progress, and plans for after high school.

CTE Pathways

Career and Technical Education (CTE) gives high school students the chance to get a head start on preparing for college or a career. In CTE programs you will learn how core school subjects like math, science and writing are used in real-life. As a CTE student you have the opportunity to participate in hands-on training in your chosen program and gain real world experience.

For more information please see [CTE Pathways](#).
